• Application rates and conditions follow the product label and manufacturer’s instructions

Packaging & granules

Product specifications

Organic matter: ≥30%

Total nutrients (N+P_2O_5+K_2O): ≥13%

Net weight: 20 kg

Follow the actual product label

Application & precautions

Confirm crop, soil, water and equipment conditions before use. Request the manufacturer’s instructions for mixing ratios, filtration, compatibility and top-dressing or irrigation application. Quick-dissolving does not mean residue-free or suitable for every drip system.

Plan application according to soil, crop and local conditions. Follow the product label and the manufacturer’s instructions for rates, application methods and precautions.
